NGSA and Center for LNG Statement on the Passing of Kevin McIntyre

(Washington, D.C.) – The Natural Gas Supply Association (NGSA) and the Center for LNG today released the following statement on the passing of FERC Commissioner and former Chairman Kevin McIntyre. Speaking on behalf of both NGSA and the Center for LNG, Dena E. Wiggins, NGSA’s president and CEO said:

“We join with many others today in mourning the passing of Chairman Kevin McIntyre.

“He was a ‘lawyer’s lawyer,’ keenly aware of the rule of law and the statutory framework that guides the Federal Energy Regulatory Commission. In addition to his immense talents as a lawyer, much more importantly, he was an enormously kind and decent man, devoted to his family and to his many friends. We will miss his leadership and will miss even more deeply his presence in our lives. Our prayers are with his family.”

####

The Natural Gas Supply Association (NGSA) represents integrated and independent companies that supply natural gas. Founded in 1965, NGSA is the only national trade association that solely focuses on producer-marketer issues related to the downstream natural gas industry. NGSA maintains a deep focus on the regulatory issues that affect natural gas producer-marketers and has been involved in a substantive manner in every one of the Federal Energy Regulatory Commission’s significant natural gas rulemakings since FERC’s creation in 1977. For more information, please visit www.ngsa.org and www.naturalgas.org.

The Center for Liquefied Natural Gas (CLNG) advocates for public policies that advance the use of liquefied natural gas (LNG) in the United States, and its export internationally. A committee of the Natural Gas Supply Association (NGSA), CLNG represents the full value chain, including LNG producers, shippers, terminal operators and developers, providing it with unique insight into the ways in which the vast potential of abundant, versatile LNG can be fully realized.
